ENIS MUSLIU

WEB-DEVELOPER

PROFILE

An Embedded Systems Engineer transforming into a Full-Stack Developer, ready to learn anything useful and practical I encounter.

EDUCATION

Bachelor of Computerized Automation and Robotics University of Prishtina, Prishtina | 2016 - Present

Studying about programming, electronics, communication protocols and all things needed to design, build, and control the movements and actions of robots and automation systems

COURSE

THE WEB DEVELOPER BOOTCAMP 2021 Udemy/Colt Steele | August 2021 - Present

A 63 hours course for Web Development. This course does not cut any corners, as the instructor of this course spent 8 months preparing this course. The course includes practical lessons and tips and tricks as to where that knowledge can be applied.

- **Front-end(30Hours):**
 - HTML5
 - CSS3
 - Flexbox
 - Responsive Design
 - Bootstrap
 - Javascript(all 2020 modern syntax, ES6, ES2018, etc.)
 - DOM

- **Back-end (ongoing-33Hours)**

PLC PROGRAMING

MIRECK/Kushtrim Mehmeti, Prishtina | May 2021 - August 2021

- **How a PLC works(10Hours)**
- **Programming PLCs in Ladder Logic(8 Hours)**
- **Program real world example project(10 hours)**
- **Introduction to HMI programming(5Hours)**

SKILLS

Web Development

HTML5

CSS3

Bootstrap5

Javascript

Sass

Embedded Systems

C++

Embedded C

Assembly

Eagle

KiCad

Altium Designer

PLC Programming

Function Block Diagram(FBD)

Ladder Logic

PROJECTS

- **RENESAS MCU 2020**

RENESAS COMPANY | **January - March 2020**

This was a competition between universities world wide about robots' performance. We had to assembly the parts of an autonomous robot car, programming it, optimizing it in order to drive faster and be accurate as much as possible.

But unfortunately it was cancelled at the last moment due to Covid-19.
